PROFILE SUMMARY

I am a dedicated and forward-thinking software engineering student with hands-on experience in both individual and team-based projects, including real client work. I enjoy solving real-world problems through creative and efficient solutions. I'm quick to adapt to new technologies, passionate about continuous learning, and always ready to contribute to innovative and collaborative environments. I'm looking to bring my energy and skills into a team where I can grow and make a meaningful impact.

TECHNICAL SKILL

- Java / javaFX
- PHP
- SQL
- Android(java)
- JavaScript
- React Native
- HTML / CSS
- React Js
- Bootstrap/Tailwind

SOFT SKILL

- Problem Solving
- Leadership
- Communication
- Time Management

ADDITIONAL SKILL

- Graphic Design
- AutoCAD
- Digital Marketing
- Microsoft Office Suite

EDUCATION

Bachelor of Engineering (BEng) in Software Engineering — 2022 - Current
Java Institute for Advanced Technology — In collaboration with IIC University of Technology

Certificate in Computer Science — 2020 - 2021
Sri Lanka Technological Campus (SLTCA)

Certificate in Graphic Design — 2020 - 2021
Sri Lanka Technological Campus (SLTCA)

Certificate in AutoCAD — 2022
Oxford College of Construction Studies (OCCS)

LANGUAGES

- Sinhala (Fluent)
- English (Medium)

EXTRA ACTIVITIES

- **Captain of School Cricket Team** — Led the Under 17 & Under 19 teams (2016–2019)
- **Silver Medal – Long Jump** — Kegalle Divisional Sports Meet (2018)
- **Member – Under 17 Inter-District Cricket Team**
- **School House Captain** — Provided leadership for house activities and sports events (2019)
- **Captain – School Elle Team** (2018–2019)
- **2nd Place – Inter-District Elle Tournament** — Represented team in Sabaragamuwa Provincial Competition

PROJECTS

Banking System – Account & Payment Management Web App

Developed a real-client banking system to manage customer accounts, employee records, payment collections, and data analytics, providing a secure and efficient platform for financial operations and administrative tasks.
Technologies: PHP, JavaScript, MySQL, CSS
GitHub: github.com/supuns2001/Banking-System

Client Project

Loan Management System – Desktop App

Built a Java-based loan management system to handle customer profiles, loan processing, installment tracking, and report generation including cash summaries and past-due analysis. Backend powered by MySQL.
Technologies: Java, MySQL
GitHub: github.com/supuns2001/Loan-Management-System

Client Project

MEDIFINDSL – E-Commerce Web App

Developed a responsive e-commerce platform for purchasing and selling medical equipment such as wheelchairs, hospital beds, and orthopedic devices. The platform supports international shipping, vendor account creation, and product listings, offering users the ability to browse, filter, and securely purchase products online.
Technologies: PHP, JavaScript, MySQL, Bootstrap
GitHub: github.com/supuns2001/MEDIFINDSL-Web-Project

University Project

E-Store – Mobile Commerce App

Developed a mobile commerce app for Android with real-time tracking, local payments, Firebase admin panel, and user-friendly design, aimed at delivering a smooth shopping experience for Sri Lankan users.
Technologies: Java (Android), MySQL , Firebase , OKHTTP , Google Map API , PayHere SDK
GitHub: github.com/supuns2001/E-Store-Mobile-App

University Project

Pharmacy POS System – Desktop App

Developed a real-client POS system for a pharmacy as part of a group project. Designed both frontend and backend using JavaFX and MySQL. Key features include billing, inventory control, product registration, and generating detailed sales and stock reports.
Role: Full-Stack Developer (Frontend & Backend)
Technologies: JavaFX, MySQL
GitHub: P-02—Pharmacy-System-software

Client Group Project
